DESIGN
WHACK

Dear Students and Recent Graduates,

All of us have that one design which screams to us to be shared and celebrated! It could be the over scrutinised thesis, the maddening research, the teacher driven project from studio, the deadline challenging project from a design competition, or a design scribbled just to calm our nerves on an anxious afternoon!

We have all seen Awards for Architects which celebrate their designs in different categories. Similarly, select the category and send us your best work. We will recognise the King of the Kings for their excellence in academic projects which have remained uncelebrated till now!

Design Whack brings to you the perfect launching pad to the pool of infinite opportunities.

Take your best designs, select the appropriate categories and participate in India's first Student Awards in architecture!
